ATTENTION

You have purchased a 300BPAU Universal Page Adapter. When hooking this unit to an existing Aiphone System, do not use the barrier screws on the front of the unit! Please use the four screw barriers on the left side of the unit.

DO NOT USE THIS TERMINAL
FOR AIPHONE SYSTEM

Attach only wire #1 (+24volts) to terminal #1
Attach only wire #2 (page) to terminal #2
Attach only wire #5 (ground) to terminal #4
Terminal #3 is unused.

Wires #3 and #4 are the talk paths and should be insulated from touching each other or to any other place.
